## KEY TO CATALOGUING

For the benefit of our Clients we set out below the main features of the new system, which consists of the use of certain easily remembered symbols denoting the status of the individual lots, as follows:—

- ★ Unused.                      ○ Used.                      ⊞ Block of four.  
⊞ Block larger than four.    ⊠ On entire.              △ On piece.

The important question of gum on unused stamps is dealt with as follows:—

- ★ Unused without gum.  
Part o. g. Unused with part original gum.  
o. g. Unused with the full original gum slightly disturbed or alternatively having a previous mount.  
Mint Unused with original gum in Post Office state but mounted with a peelable hinge.  
Unmounted mint. As mint but unmounted, unhinged.

The omission of a symbol following the Lot No. is an indication that the lot is mixed, e.g., comprising mint and used stamps. In such cases, the text of the description provides full details of the lot to ensure complete accuracy of description.

The number of stamps in the lot is given in the column preceding the catalogue value.

### Catalogue Numbers and Pricings.

The Catalogue numbers of the contents of the lots are given in brackets immediately following the description, but in the case of a bulky lot, only the numbers of some of the principal items are shown.

Catalogue numbers and prices are by Scott's (1942) and Scott's U. S. Specialized (1942) Catalogue, except for Air Mails which are noted with Sanabria numbers and prices.

### Estimated and Catalogue Values.

The final column shows the catalogue value of the lot, but in certain cases an estimated value is given, indicated by the abbreviation "Est. Cash Val." immediately preceding the figures of value. These cases are:—large lots; items unpriced in the catalogues, or those in which the value has no relation to the catalogue price.

## Foreword

To the many lovers of the stamps of Jamaica, this collection should come as a boon and a surprise, also a most useful opportunity to fill in some missing blanks, and to pick up much fine material to improve one's collection.

Numerous honors and awards have been received, a Silver Gold medal at TIPEX (Highest in its class), a Grand Award at National Stamp Exhibition in Philadelphia in 1938, a Grand Award at Lansdowne, Penna. etc., etc.

Many of the finest pieces are from the Hind, Ferrari, Trivett, Hopkinson, Clutterbuck, Nicholson and many other well-known collections. The large Pineapple blocks (which cost about half catalogue) and the rare "SER.ET" sheets were ex Hopkinson, as well as the 1½p block KG proof in blue probably unique. The 2sh. double (5 exist) and the unused Slavery stamp without "SPECIMEN", both came from celebrated collections. The latter cost Mr. Turner £110. The 1sh inverted center is another of the great British Colonial rarities and was very cheaply bought for \$500.

Perhaps the outstanding highlight of the collection is its magnificent covers, three volumes of them. Chosen with loving care and beautifully mounted as is the rest of the collection, they are quite possibly as fine a lot as exists in this country.
